Pisang Peak

Difficulty	Duration	Region	Max. Altitude	Type	Group Size	Accommodation
Hard	18 Days	Manang	6091m	Peak Climbing	2-12 pax	Lodges, Hotels and Camp

Overview

Pisang peak (6,091 m) lies just north of the Manang Valley which the famous Annapurna Circuit passes through. While sometimes offered as a three- day excursion from the village of Pisang, this can only be done if properly acclimatised.

The climb since 2005 approaches via the West ridge. The upper part of the ridge, above the high camp at 5,200 m, is guarded by huge rock slabs which make it difficult to climb, especially in wet or snowy conditions. Inexperienced climbers may feel more comfortable on Island Peak or nearby Chulu Far East.

Naturally there are fabulous views to be seen from the summit over the Manang Valley and the Annapurna Range. A German expedition made the first ascent of Pisang Peak in 1955.

A steep and narrow path through a very dense forest will bring us to the dramatic curved rock face, rising 1500m from the river. After passing this last bit of rock, the valley opens up with majes, tic vistas. And right where the valley widens stands the Paungda Danda, a massive sloping rock face that rises over 5,000ft (1500m) above the trail. The trail further passes near the small village of Ghunsa, a cluster of flat mud roofs just below the trailhead. Now the trail goes through meadows where horses and yaks graze.
