## **Overview**

Get ready for one of the most challenging and remote treks Nepal has to offer. Trekking around the giant Himalayan peak Dhaulagiri, the 7th highest peak in the world, is immensely rewarding in terms of adventure and unparalleled scenery. The Dhaulagiri region is a land of dramatic contrast. This is really a trek into the wild which contains the world's deepest river gorge and some very interesting indigenous people. Mountain sides of rhododendron shine with color in the spring, and other flowers are abundant on the trail. This is an adventure ideal for those that thrive on rugged and remote trails.

The Round Dhaulagiri trek starts from Baglung, which is a 3 hour drive accessible from Pokhara. The trail is set in a beautiful virgin forest and then changes into a very rough terrain as it proceeds to the alpine grasses of Italy base Camp. After this, you have to cross a difficult rubble-covered glacier, being aware of potential danger of constant rock fall. From here, the trail climbs onto the main glacier so it is recommended to walk really carefully as any mistakes while walking could mean a loss of life. The trail is a bit easier after Army Base Camp heading up to French Col and past the Hidden Valley which opens up into a landscape filled with rich hued rocks.

This is a really high altitude trek so there is constant risk of acute mountain sickness. It is first recommended to do other low-altitude treks such as Annapurna Base Camp or Poon Hill Trek for proper acclimatization before attempting the Round Dhaulagiri Trek.

The best time to do this trek is from March-May (spring season) and September-November (autumn season) as the skies are more clear and the trail is ideal for walking.
